Work Experience

- **Dye & Durham Australia (formerly GlobalX)** Melbourne, AU
  Senior Software Engineer *Dec 2021 - present*
  Software Engineer *Dec 2019 - Dec 2021*
  Junior Software Engineer *Jan 2019 - Dec 2019*
  - Architected a property-title data integration spanning all Australian jurisdictions and used by major banks nationwide
  - Owned and evolved GitHub Actions CI/CD tooling across 200+ microservice repositories and six teams, standardising delivery practices and improving deployment efficiency
  - Led adoption of AI-assisted engineering practices, translating emerging capabilities into practical development workflows
  - Partnered across teams to maintain and evolve large-scale practice management products serving Australian conveyancers
  - Mentored junior engineers through code reviews, pair programming, and technical guidance, reinforcing engineering best practices
- **Independent Contractor** Remote
  Self-employed *2023 - present*
  - Implemented OTA updates on the React Native application of a family-owned solar energy hardware manufacturer
  - Developed the proof-of-concept and MVP for a stealth-mode B2C AI Native company
  - Developed internal automations for a tax accounting firm, saving 250+ hours of manual work annually

Technical Skills

- **Languages:** C#, TypeScript, JavaScript, Python, Java, SQL.
- **Frameworks:** Angular, ASP.NET Core, Entity Framework Core, React, Vue.js, FastAPI, Pydantic, Tailwind CSS.
- **Developer Platform:** GitHub, GitHub Actions, Docker, Kubernetes, Flux CD, Kong, TeamCity, Octopus Deploy.
- **AI Engineering:** LangGraph, LangChain, OpenAI Agents SDK, Claude API, Pydantic AI, LlamaIndex, MCP, RAG, LangSmith, Langfuse, pgvector.
- **Cloud and Practices:** AWS, Google Cloud, Cloudflare, TDD, CI/CD, Infrastructure as Code, DevOps, GitOps, Agile delivery.

Education

- **Monash University** Melbourne, AU
  B.InfoTech (Computer Network & Security) *2017 - 2018*
  - GPA 3.5
  - Participated in UniHack Mini Monash, 2017
  - Developed two major software development project on PHP 7 as main developer
- **Monash University** Melbourne, AU
  Diploma of Engineering (IT Stream) *2016 - 2017*
  - GPA 3.75

Awards and Scholarships

- **Monash University - Information Technology International Merit Scholarship (2017):** A scholarship awarded from Monash University for exceptional study progression and results.
- **Monash College - Academic Excellence Award (2016):** Awarded for "Introduction to Algorithms and Programming".
